

Working Student Job Software Development (f/m)

The COBI Software team is seeking an energetic, high-flying and fun student who enjoys moving things forward and supporting us in expanding the technical capabilities of the biking platform and/or developing new consumer-facing features on top.

What connects us is a passion for cycling, digital technology and good design as well as the desire to try out new things and always question the status quo. We want to make a difference and put ourselves at the forefront of a new movement.

COBI has established a brand new market segment, of which we are the leader. Our partners value this and want to take advantage of this. All of our marketing activities are aimed at making COBI touchable and tangible. We scrutinize every action to ensure that it delivers the COBI experience – whether by trying it out, listening to experiences from others or from a trusted partner. The user, rather than technology, is our key priority.

The ideal candidate will have a great passion for COBI and for biking and execute all activities with respect to the COBI brand strategy. Position is located in Frankfurt/Main, Germany.

Primary Responsibilities:

- Support development of new consumer-facing features
- Extend capabilities of our Software stack
- Write unit and integration tests
- Test rides with COBI system on bikes & e-bikes
- General support of the Software team

Requirements:

- Be available for 3-5 days a week
- Preferred if he/she is biking on a regular basis
- At least basic knowledge of programming for Embedded systems, iOS or Android or the Web
- Fluent English skills
