

Supply Chain Manager/Purchasing Coordinator (m/f)

COBI is looking for a hands-on Manager responsible for managing the COBI's Supply Chain and Purchasing activities. You will oversee the procurement and logistics of the products in COBI's portfolio, working with the team to plan and manage the supply chain for all parts based on forecasts and customer orders. You will also be responsible for steering 3rd parties in the area of supply and logistics as well as creating, implementing and maintaining supply chain related policies and procedures.

The ideal candidate will have a passion for biking and will follow the COBI brand strategy in the execution of all activities. This position is located in Frankfurt/Main, Germany.

Essential Duties and Responsibilities include the following

- Manage the entire global flow of goods and materials to ensure efficient delivery, product quality, and on-time delivery of products as an E2E Supply Chain Operation
- Demand planning and material resource planning incl. materials purchasing with the CMS / OEM partner network. Source, audit and monitor suppliers as well as 3PLs in Europe and Asia
- Ensure smooth customer order management, managing the respective resources
- Providing accurate routing information to ensure that delivery times and locations are coordinated
- Manage customizations at 3PLs and purchasing of associated materials
- Manage product data to keep accurate product, contract pricing and invoicing information
- Initiate and lead projects to improve total supply chain costs and service levels (time / quality).
- Develop supply chain related KPIs to track key success/efficiency parameters via management dashboard
- Communicating needs & objectives to managers & key personnel in procurement, logistics & distribution

Requirements:

- Bachelor degree from an accredited university or college, master degree is a plus
- Minimum 5 years of relevant experience in supply chain management
- Excellent verbal/written communication skills in German and English
- Technical understanding of electronics assembly
- Background and understanding of the hi-tech market (servers, other hardware and software)
- Solid understanding of regulatory requirements related to international import & export standards
- Excellent knowledge of distribution and channel management, knowledge of the pros and cons
- Strong analytical skills with proven ability to identify trends and implement process improvements based on data
- Self-starter who can manage multiple projects and still deliver on time, every time
- Ability to travel up to 20%
- Proven customer focus with ability to manage high customer expectations
- ERP experience is a must, SAP/Netsuite-Experience is a plus
